

## LEDSTRIP 24V LINE IP20 MIDLUM 2700K LPM

LEDstrip with technology that conceals the LED Chip and electronics under an homogenous phosphorous/silicone layer. Short spacing between the LEDs creates an even illuminated line without profile or cover. COB technology with high lumen output and very good efficiency. Cutting increments of 31,25 mm and seamless joints make it simple to adapt lengths. Comes as standard in rolls of five metres with 2 m connecting cable at each end, 1pc quick connection and self-adhesive tape for easy installation. Upon request, running meters with connection cables are delivered according to your specifications; running meters are delivered as standard without connection cables.
