FUSE 5X20 5A SLOW BLOW 2-PACK

Description

Converter for LEDstrip 230V DIM with built-in fuse for safe operation. Fuse 5x20 2A (2-pack) is used in the IP20 converter as a replacement or spare fuse to protect the equipment in the event of an overload.

Measurement and installation

The converter is available in IP20 and IP67. The IP20 version must be installed in an IP-rated junction box, features a replaceable fuse, and can be placed up to 15 m from the LED strip. In the kits, the IP67 version is integrated onto the connection cable, 0.5 m from the LED strip. The separate IP67 Converter accessory instead features a 2 m cable between the LED strip and converter, as well as 1 m to the mains plug.

DESCRIPTION

GTIN:	7392971156866
Item Name:	Fuse 5X20 5A Slow Blow 2-pack
Warranty:	5 years

OPERATION AND CONNECTION

Driver Model:	Constant Voltage
Driver Type:	Stand Alone

COLOR AND MATERIAL

Material:	Plastic

MEASUREMENT AND INSTALLATION

Operating Environment:	Outdoor
Installation:	Surface mounted
Approval Marks:	CE
Weight (kg):	0,01
