MULTIFLY MOUNTING PLATE

Multifly mounting plate installed easily above suspended ceilings. Thanks to its unique design, it does not prevent the fitting or removal of suspended ceiling sheets. Multifly suits all ceiling profiles on the market, retaining holes are standardised and no tools are needed for installation. Multifly can be used for fixed installation of drivers and products for lighting control, fire alarm installations, KNX facilities, fibre, telecom and computer installations, etc. For vertical installation there is the accessory Flysnapper which easily snaps onto Multifly.
