ACTOR G2 LINK T WHITE

Actor G2 Link are the accessories that connect Actor G2 Pendant and Actor G2 Ceiling – quite literally. Designed for easy construction of long light lines or custom patterns in L, T, or X configurations. To link two Actor G2 Ceiling luminaires, a Ceiling Connector is required since each unit acts as both leader and follower. The smart connection solution ensures quick linking, and the compact corner connectors allow for sharp lines and cost-effective installations. Actor G2 Link makes it simple to create continuous light lines and flexible configurations. A key part of the Actor G2 family that completes the system.
